Larry,

I forwarded your request to our attorneys and they will get back to us as soon as they are able with topics/questions to prepare your legal staff. This is what I have off the top of my head, that I would like to discuss.

1. The Army is prohibited from storing toxic or hazardous materials that is not owned by the Army or another DOD entity under 10 U.S.C. § 2692(a). However, the Army could accept storage of the propellants under the exception provided at 10 U.S.C. § 2692(b), if the facts fit within one of the exceptions. What needs to be done, and by whom, to make this happen?

2. Are there any additional statutes restricting DOD involvement at the EXPLO site that would prevent DOD/Army in assisting with securing/removing/disposing of hazardous materials at EXPLO/Camp Minden?

I'm sure my attorneys will have additional topics, but I wanted to get back to you as soon as I could.

Thanks

Paige Delgado

Hi Paige:

Can I get a list of questions or concerns from your advisors? I believe they have already been in contact with Mr Crosson o Mr Jackson at the Joint Munitions Command. I am not sure if the Army attorneys will attend.

Please confirm the call-in number at Camp Minden and the code.

Take care,
Larry

Larry,
Please be advised that EPA plans to have their attorneys call into our meeting on 1/23. I think it would be beneficial for yours to also participate. I'd like to have their expertise available to further our understanding of any statutory limitations to our contingency plans.

Thank you
